NetEx/IP for Windows (H140IP) Release 7.0.4 is a feature release, and is available for download. This release is available as a no-charge upgrade to H140IP customers of record but requires a new software key.

This release supports installation and operation on Intel x86 and Intel x86 servers that are running Windows Server® 2003 through Windows Server® 2012.

FEATURES/ENHANCEMENTS ADDED WITH H140IP RELEASE 7.0.4

Refer to the Update Summary in the H140IP Release 7.0.4 Memo to Users for a description of new features and updates.

OPERATIONAL/PROCEDURAL IMPACT

H140IP Release 7.0.4 is a licensed product and requires a software license key to make it operational. Beginning with Release 7.0.4 customers of record must obtain a new software key from NetEx Software. Refer to the Prerequisites listed in the H140IP section of the NetEx/IP for Windows/UNIX Systems Release 7.0.4 Software Reference Manual for instructions on obtaining a software key.
