H214 Secure NetEx/IP

for IBM z/OS Operating Systems

Release 1.0

Memo to Users

December 22, 2017

Introduction

This Memo to Users contains information for H214, and should be reviewed before beginning the installation process.

Secure NetEx/IP for z/OS (H214) Release 1.0 is NOT compatible or interoperable with other **non-secure** NetEx/IP products on other platforms, as well as with previous releases of H210IPz.

H214 is available by download.

The following manual is available for H214:

Hxx4 Secure NetEx/IP Reference Manual

The manual, along with this Memo to Users can be downloaded from www.netex.com by selecting the 'Support' tab, then navigating to 'Products', then selecting the 'IBM System z/zOS (H21x)' link on the right side of the window, and then clicking on 'Docs' in the 'Secure NetEx/IP [H214]' entry for the appropriate version.

Support

For NetEx/IP and associated products, support is available via:

- 24x7 telephone at (800) 854-0359

- http://www.netex.com/support

- email: support@netex.com

Notice to the Customer

Comments about this documentation may be submitted via e-mail to support@netex.com or by visiting our website, http://www.netex.com. Always include the complete title of the document with your comments.

Information on Network Executive Software's general software support policy (e.g., alternate contact methods, support severity level descriptions, and service status definitions) may be found at http://www.netex.com/support/software-support-policy.

Software Modification Policy

Modifications to H214 that are not specifically authorized by NESi are prohibited.

Any unauthorized modifications to H214 may affect its operation and/or obstruct NESi's ability to diagnose problems and provide corrections. Any work resulting from unauthorized modifications shall be paid by the customer at NESi's then-current support rates and may result in the immediate termination of warranty/support coverage.

New Features

This product is functionally equivalent to (non-secure) H210IPz Release 7.4 with the added capability of optionally sending data privately/securely.

Installation

Installation Notes

1. H214 is available as a downloadable distribution. Download instructions can be obtained by contacting support@netex.com.

2. H214 Release 1.0 is distributed as a downloadable package that includes a scripted batch job and sets of distribution libraries, all packaged together in TSO TRANSMIT format.

3. Follow the installation instructions in the appendix for IBM z/OS Installation in the *Hxx4 Secure Secure NetEx/IP Reference Manual* to complete the installation.

4. Check if there are any H214 updates by going to www.netex.com, then clicking on the 'Support' tab, then navigating to 'Products', then selecting the 'IBM System z/OS (H21x)' link on the right side of the window, and then clicking on 'Updates' in the 'Secure NetEx/IP [H214]' entry for the appropriate version. If there are any, download them and follow their installation instructions.
