NetEx/IP Requester for OpenVMS on HP Integrity servers (H267IPI) Release 7.0 is a new product, and is available on Network Executive Software's FTP site, as well as on CD media. This product supports OpenVMS on the HP Integrity hardware platform, and requires a new software license for all installations.

This release supports installation and operation on HP Integrity systems that are running OpenVMS V8.3.

FEATURES/ENHANCEMENTS ADDED WITH H267IPI RELEASE 7.0

Refer to the Update Summary in the H267IPI Release 7.0 Memo-to-Users for a description of new features and updates.

OPERATIONAL/PROCEDURAL IMPACT

H267IPI Release 7.0 requires a software key to make it operational. Since this is a new product, a software key must be obtained from Netex Software. Refer to the Prerequisites listed in the H267IPI Release 7.0 Memo-to-Users for instructions on obtaining a software key.

DOCUMENTATION UPDATES
