Extended Mode NetEx/IP for Unisys OS2200 Systems (H300e) Release 7.0.5 is a replacement product for H300IPC and a maintenance update for H300e and is now available for download. This release is available as a no-charge upgrade to current H300IPC and H300e customers of record for the continued use of Ethernet connectivity to NetEx/IP networks.

At the time of this announcement, H300e Release 7.0.5 supports installation and operation on Dorado systems that are running any supported level of OS2200 up to 48R7. Check for support of future operating system levels at www.netex.com by clicking on the 'Support' tab, then selecting 'Unisys Clearpath and Dorado' under 'Products', then viewing the 'Unisys OS2200' product section.

FEATURES/ENHANCEMENTS ADDED WITH H300e RELEASE 7.0.5

- Extended mode replacement product for H300IPC .
- Allow support to configure for networks which do not allow UDP fragmentation (i.e. configurable network segment size).

OPERATIONAL/PROCEDURAL IMPACT

Refer to the Reference Manual and MTU for other operational and procedural impacts.

DOCUMENTATION UPDATES
