August 21, 2015

BFX for Unisys (H301) Release 1.4.6 is a feature release which immediately supersedes all prior releases, and is available on Network Executive Software's FTP site. This release is available as a no-charge upgrade to H301 customers of record.

At the time of this announcement, H301 Release 1.4.6 supports installation and operation on Dorado systems that are running any supported level of OS2200 up to 14.0 (R49). Check for support of future operating system levels at www.netex.com by clicking on the 'Support' tab, then selecting 'Unisys OS2200' under 'Products', then viewing the 'Unisys OS2200' product section.

FEATURES/ENHANCEMENTS ADDED WITH H301 RELEASE 1.4.6

- Feature release that consolidates the features and maintenance of all prior releases – most notable feature is the secure job transfer.

OPERATIONAL/PROCEDURAL IMPACT

In order to utilize the secure jobfile transfer, the SSL runtime libraries must be available at program run time. Refer to the Reference Manual and MTU for other operational and procedural impacts.

DOCUMENTATION UPDATES

New H301 Release 1.4.6 documents:
- H301 Memo to Users (MTU) (1.4.6-01)
- H301 Software Reference Manual (1.4.6-01)

Check for new versions of documentation at www.netex.com by clicking on the 'Support' tab, then selecting your hardware platform under 'Products', then clicking on 'Docs' in the entry for this product release.

RECENT UPDATES

Check for product updates at www.netex.com by clicking on the 'Support' tab, then selecting your hardware platform under 'Products', then clicking on 'Updates' in the entry for this product release. If any updates are listed, follow the installation recommendations.

DOWNLOAD PROCEDURE

H301 Release 1.4.6 can be downloaded from Network Executive Software. Download instructions can be obtained by contacting support@netex.com. Be sure to identify your company name in the request, the product being requested (H301), and contact information, including a name and telephone number.

END OF SUPPORT

Prior H301 Releases
Consistent with our support policy, and in alignment with previous release announcements, support for all prior releases of H301 will end as follows:

Release	End-of-Support Date
H301 1.4.4	Feb 21, 2016
