BFX for Unisys (H301L) Release 1.4.7 is a maintenance release which immediately supersedes all prior releases, and is available for download. This release is available as a no-charge upgrade to H301L customers of record.

At the time of this announcement, H301 Release 1.4.7 supports installation and operation on Dorado systems that are running any supported level of OS2200 up to 48R7. Check for support of future operating system levels at www.netex.com by clicking on the 'Support' tab, then selecting 'Unisys OS2200' under 'Products', then viewing the 'Unisys OS2200' product section.

FEATURES/ENHANCEMENTS ADDED WITH H301L RELEASE 1.4.7

- Maintenance release that consolidates the features and maintenance of all prior releases.
- Includes maintenance fixes listed in the MTU.

OPERATIONAL/PROCEDURAL IMPACT

In order to utilize the secure jobfile transfer, the SSL runtime libraries must be available at program run time. Refer to the Reference Manual and MTU for other operational and procedural impacts.

DOCUMENTATION UPDATES

New H301L Release 1.4.7 documents:

- H301L 1.4.7 Release Announcement
- H301 1.4.7 Memo to Users (MTU)
- H301 1.4.7 Reference Manual

Check for new versions of documentation at www.netex.com by clicking on the 'Support' tab, then selecting your hardware platform under 'Products', then clicking on 'Docs' in the entry for this product release.

RECENT UPDATES

Check for product updates at www.netex.com by clicking on the 'Support' tab, then selecting your hardware platform under 'Products', then clicking on 'Updates' in the entry for this product release. If any updates are listed, follow the installation recommendations.

DOWNLOAD PROCEDURE

H301L Release 1.4.7 can be downloaded from Network Executive Software. Download instructions can be obtained by contacting support@netex.com. Be sure to identify your company name in the request, the product being requested (H301L), and contact information, including a name and telephone number.

END OF SUPPORT

Prior H301 Releases

Consistent with our support policy, and in alignment with previous release announcements, support for all prior releases of H301L will end as follows:

<u>Release</u>	<u>End-of-Support Date</u>
H301L 1.4.5	December 19, 2015
H301L 1.4.6	April 15, 2016
